## Profile

I'm an enthusiastic and detail-oriented Full-stack Developer. Possesses the ability to work in a team environment as well as using own initiative. Good understanding of React, React Native (Android, iOS), Next.js, Typescript, JavaScript, Node.js, HTML/CSS, MySQL, MongoDB, AWS, and Git.

## Employment History

### Front-end Developer (Remote Part Time), The Considerate Consumer

Sep 2021 — Present 📍 Hamburg

- Using React.js to create a SPA which can bind data to specific views and synchronize data with the server.
- Spearheaded transition from Squarespace to MERN stack.
- Assess UX and UI designs for technical feasibility.
- Working on Rest Webservices as well as Node Rest framework for back-end services, using MongoDB for database services.

### Front-end Developer, Cellari

Feb 2022 — April 2022 📍 Copenhagen

- Refining and improving existing platform features.
- Improving user interface.
- Managing the development of new features or initiatives.
- Managing time-sensitive updates, including content changes and database upgrades.
- Working with JavaScript, Docker, CSS, HTML and Python.

### Full-Stack Developer, Dianox

Aug 2021 — Feb 2022 📍 Copenhagen

- Built the full-stack web app from scratch by using technologies like Next.js/React, Typescript and AWS/MongoDB.
- Liaised with UI/UX designers, developers, quality assurance testers, and CTO as needed.
- Managed time-sensitive updates, including content changes and database upgrades.
- Planned, wrote, and debugged web application.
- Developed app integration with REST and other APIs for Google Maps, social media logins, payment processors, and other services.

### Functional Technician/IT support, Metro Services

Oct 2013 — Mar 2019 📍 Copenhagen

Function check of various equipment such as passenger announcement (PA) system and passenger information system (PIS) communications in the Copenhagen metro trains. Perform equipment installation and upgrades for existing and new hardware/software.
