

Shan-e-Haider Bukhari

Full Stack Developer

+4591439592

shan.haider@gmail.com

Copenhagen Denmark

Profile

I'm an enthusiastic and detail-oriented Full-stack Developer. Possesses the ability to work in a team environment as well as using own initiative. Good understanding of React, React Native, Next.js, Typescript, JavaScript, Node.js, C#/.NET, HTML/CSS, MySQL, MongoDB, AWS, and Git.

Working Experience

Front-end Developer, Cellari

Feb 2022 — Present Copenhagen

- Refining and improving existing platform and user interface features.
- Managing the development of new features or initiatives.
- Managing time-sensitive updates, including content changes and database upgrades.
- Working with JavaScript (Vanilla.js), Docker, CSS, HTML and Python.

Front-end Developer (Remote), The Considerate Consumer

Sep 2021 — Present Hamburg

- Taking numerous responsibilities in front-end development with JavaScript and TypeScript and applied frameworks and other tools such as React.js and Redux among many other.
- Spearheaded transition from Squarespace to MERN stack.
- Assess UX and UI designs for technical feasibility.
- Working on Rest Webservices as well as Node Rest framework for back-end services and using MongoDB for database services.

Full-Stack Developer, Dianox

Aug 2021 — Feb 2022 Copenhagen

- Built and managed the full-stack web app from scratch by using technologies like Next.js, Typescript, AWS and MongoDB.
- Liaised with UI/UX designers, developers, quality assurance testers, and CTO.
- Managed time-sensitive updates, including content changes and database upgrades.
- Planned, wrote, and debugged web application.
- Developed app integration with REST and other APIs for Google Maps, social medialogins, payment processors, and other services.

Functional Technician/IT support, Metro Services

Oct 2013 — Mar 2019 Copenhagen

Function check of various equipment such as passenger announcement (PA) system and passenger information system (PIS) communications in the Copenhagen metro trains. Perform equipment installation and upgrades for existing and new hardware/software.
